GENERAL INFORMATION

BISA

The British International Studies Association, founded in 1975, acts as a professional body for all those interested in the subject area, and publishes the quarterly, **REVIEW OF INTERNATIONAL STUDIES**. It also runs a series of specialised Working Groups. The Annual Conference is intended to bring together scholars and practitioners from a wide variety of backgrounds and provide them with an opportunity to exchange views on theoretical and empirical issues of current interest; it also incorporates the Association's Annual General Meeting. This year's conference will be held at the University of Leeds.
